Division of Entomology

| Series<br>No. | Title and Author(s)                                                                   | Year of<br>publica-<br>tion |
|---------------|---------------------------------------------------------------------------------------|-----------------------------|
| 21            | THE EUROPEAN EARWIG<br>by R. Glendenning                                              | 1947                        |
| 26            | COMMON GRAPE INSECTS IN ONTARIO AND THEIR<br>CONTROL<br>by W.A. Ross and T. Armstrong | 1949                        |
| 29            | THE OAT NEMATODE IN ONTARIO<br>by A.D. Baker and L.J. Chapman                         | 1946                        |
| 30            | THE SUGAR-BEET NEMATODE IN ONTARIO<br>by A.D. Baker                                   | 1945                        |
| 31            | A NEW TYPE OF KILLING BOTTLE AND JAR<br>by H. Raizenne                                | 1948                        |
| 32            | HOW TO INFLATE INSECT LARVAE<br>by H. Raizenne                                        | 1945                        |
| 33            | THE BEDBUG AND ITS CONTROL<br>by C.R. Twinn                                           | 1945                        |
| 35            | THE GRAPE LEAFHOPPER ON VIRGINIA CREEPER<br>by G.F. Manson                            | 1946                        |
| 36            | TERMITES CONTROL IN ONTARIO<br>by E.B. Watson and R.W. Thompson                       | 1948                        |
| 38*           | INSECT CONTROL IN LUMBER CAMPS WITH DDT<br>by C.R. Twinn and R.E. Balch               | 1946                        |
| 39*           | HOW TO USE DDT IN LUMBER CAMPS<br>by C.R. Twinn and R.E. Balch                        | 1946                        |
| 42            | HOW TO FORETELL AND CONTROL OUTBREAKS OF<br>WHITE GRUBS<br>by G.H. Hammond            | 1946                        |
| 43            | BUGS CAUSING SCARRING OF PEACHES<br>by W.A. Ross and W.L. Putman                      | 1946                        |

| Series<br>No. | Title and Author(s)                                                                                        | Year of<br>publica-<br>tion |
|---------------|------------------------------------------------------------------------------------------------------------|-----------------------------|
| 45            | THE COMMON INSECTS WHICH ATTACK THE CORN<br>PLANT IN NEW BRUNSWICK<br>by R.P. Gorham                       | 1946                        |
| ✓ 46          | THE CurrANT FRUIT FLY AND ITS CONTROL IN<br>CANADA<br>by H. Andison, H.P. Richardson, and A.G.<br>Robinson | 1951                        |
| 47*           | THE USE OF DDT ON POTATOES<br>by A.G. Dustan                                                               | 1947                        |
| 49            | CONTROL OF THE MORE INJURIOUS BARK BEETLES<br>OF THE CANADIAN ROCKY MOUNTAIN REGION<br>by G.R. Hopping     | 1946                        |
| 51            | THE CONTROL OF TOBACCO CUTWORMS<br>by C.J. Fox and H.W. Goble                                              | 1948                        |
| 55            | SERICULTURE AND ITS PROSPECTS IN CANADA<br>by C.G. MacNay                                                  | 1946                        |
| 56            | CONTROL OF HORNWORMS ATTACKING TOBACCO IN<br>EASTERN CANADA<br>by G.M. Stirrett and C.J. Fox               | 1948                        |
| 57*           | THE ROUND-HEADED APPLE TREE BORER<br>by C.E. Petch                                                         | 1946                        |
| 58            | THE ARMYWORM OF GRAIN FIELDS, AN OCCASIONAL<br>FIELD PEST IN NEW BRUNSWICK<br>by R.P. Gorham               | 1946                        |
| 59            | THE LODGEPOLE PINE NEEDLE MINER IN WESTERN<br>CANADIAN PARKS<br>by G.R. Hopping                            | 1946                        |
| 60*           | THE SPRUCE BUDWORM AND FOREST MANAGEMENT<br>IN THE MARITIME PROVINCES<br>by R.E. Balch                     | 1946                        |
| 62            | PALE WESTERN CUTWORM CONTROL<br>by L.A. Jacobson and H. McDonald                                           | 1949                        |

| Series<br>No.<br>Date | Title and Author(s)                                                                                                             | Year of<br>publica-<br>tion     |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------|---------------------------------|
| 63*                   | CUTWORMS IN PRINCE EDWARD ISLAND<br>by F.M. Cannon                                                                              | 1947                            |
| 65*                   | LIVESTOCK INSECT CONTROL WITH DDT<br>by C.R. Twinn                                                                              | 1947                            |
| 67                    | CONTROL OF LYGUS BUGS IN ALFALFA SEED<br>FIELDS IN SASKATCHEWAN<br>by H. McMahon and A.P. Arnason                               | 1947                            |
| 68                    | A SIMPLE PLOUGH-EQUIPMENT FOR APPLYING<br>LIQUID FUMIGANTS TO THE SOIL<br>by K.M. King and H. Andison                           | 1947                            |
| 69*                   | STANDARD CONTROL RECOMMENDATIONS FOR<br>THE GLADIOLUS THrips<br>by A.G. Dustan                                                  | revision<br>expected<br>in 1952 |
| 71                    | THE CONTROL OF APHIDS IN FIELD AND<br>GARDEN IN BRITISH COLUMBIA<br>by R. Glendenning                                           | 1947                            |
| 72                    | THE SWEETCLOVER WEEVIL<br>by R.D. Bird                                                                                          | 1948                            |
| 73                    | SPRAYS AND DUSTS FOR GRASSHOPPER CONTROL<br>by L.G. Putnam                                                                      | 1949                            |
| 74                    | TENTATIVE RECOMMENDATIONS FOR THE USE OF<br>BENZENE HEXACHLORIDE IN THE CONTROL OF<br>WIREWORMS IN TOBACCO SOILS<br>by C.J. Fox | 1948                            |
| 77*                   | FIELD IDENTIFICATION OF POTATO APHIDS<br>by L.A. Dionne                                                                         | 1948                            |
| 78                    | CONTROL OF ROOT WEEVILS IN BRITISH COLUMBIA<br>by H. Andison                                                                    | 1948                            |
| 79                    | CONTROL OF THE WESTERN RASPBERRY FRUITWORM<br>IN BRITISH COLUMBIA<br>by H. Andison                                              | 1948                            |

| Series<br>No. | Title and Author(s)                                                   | Year of<br>publica-<br>tion |
|---------------|-----------------------------------------------------------------------|-----------------------------|
| 80*           | THE SEED-CORN MAGGOT<br>by A.G. Dustan                                | 1948                        |
| 81*           | CUTWORMS AND THEIR CONTROL IN GARDENS<br>by H. McDonald               | 1948                        |
| ✓ 82*         | APHIDS ATTACKING VEGETABLE CROPS<br>by W.G. Matthewman                | 1948                        |
| 83            | FLEA BEETLES<br>by R.D. Bird                                          | 1948                        |
| 84            | BLISTER BEETLES<br>by G.F. Manson                                     | 1948                        |
| 85            | SLUG CONTROL IN CANADA<br>by R. Glendenning                           | 1952                        |
| 86            | THE CONTROL OF GRASSHOPPERS IN VEGETABLE<br>CROPS<br>by R.H. Handford | 1948                        |
| 88            | WHITE GRUBS<br>by G.H. Hammond                                        | 1948                        |
| 89*           | THE ONION MAGGOT<br>by A.G. Dustan                                    | 1948                        |
| ✓ 90*         | THE CABBAGE MAGGOT<br>by W.G. Matthewman                              | 1948                        |
| ✓ 91          | THE CARROT RUST FLY<br>by R. Glendenning and H.G. Fulton              | 1951                        |
| ✓ 92*         | THE COLORADO POTATO BEETLE<br>by F.M. Cannon                          | 1951                        |
| 93            | THE POTATO LEAFHOPPER<br>by F.M. Cannon                               | 1948                        |
| ✓ 94*         | THE POTATO FLEA BEETLE<br>by F.M. Cannon                              | 1949                        |
